Suffield Park Infant and Nursery School Online Safety Policy (written using Norfolk's Model Online Safety Policy)

Writing and reviewing the Online Safety policy

This policy is part of the School's Statutory Safeguarding Policy. Any issues and concerns with online safety must follow the school's safeguarding and child protection processes.

- Ofsted inspectors will always make a written judgement under leadership and management about whether or not the arrangements for safeguarding children and learners are effective.
- The school will identify a member of staff (Lindsay Kerry) who has an overview of Online Safety, supported by a designated Governor (Viv Lennox).
- Our Online Safety Policy has been written by the school, building on best practice and government guidance. It has been agreed by senior leadership and approved by governors.
- > The Online Safety Policy and its implementation will be reviewed annually
- > The Online Safety Policy was discussed by Staff on: 29th November 2016.
- The Online Safety Policy was discussed by the School Council on: Date to be arranged.
- > The Online Safety Policy was revised by Lindsay Kerry (November 2016)
- > It was approved by the Governors on: Thursday 1st December 2016.
- > Date of next review: November 2017

Contents

- 1. Introduction and Overview
 - Rationale and Scope
 - How the policy is communicated to staff/pupils/community
 - Handling concerns
 - Reviewing and Monitoring
- 2. Education and Curriculum

- Pupil online safety curriculum
- Staff and governor training
- Parent/Carer awareness and training
- 3. Incident Management
- 4. Managing the IT Infrastructure
 - Internet access, security and filtering
 - E-mail
 - School website
 - Social networking
- 5. Data Security
 - Management Information System access and data transfer
- 6. Equipment and Digital Content
 - Digital images and video

Rationale

The purpose of this policy is to:

- Set out the key principles expected of all members of the school community at Suffield Park Infant and Nursery School with respect to the use of technologies.
- Safeguard and protect the children and staff.
- Assist school staff working with children to work safely and responsibly with technologies and to monitor their own standards and practice.
- Set clear expectations of behaviour and/or codes of practice relevant to responsible use of technologies for educational, personal or recreational use for the whole school community.
- Have clear structures to deal with online abuse such as online bullying [noting that these need to be cross referenced with other school policies].
- Ensure that all members of the school community are aware that unlawful or unsafe behaviour is unacceptable and that, where appropriate, disciplinary or legal action will be taken.
- Minimise the risk of misplaced or malicious allegations made against adults who work with students.

The main areas of risk for our school community can be summarised as follows:

Content

- Exposure to inappropriate content
- Lifestyle websites promoting harmful behaviours

- Hate content
- Content validation: how to check authenticity and accuracy of online content

Contact

- Grooming (sexual exploitation, radicalisation etc.)
- Online bullying in all forms
- Social or commercial identity theft, including passwords

Conduct

- Aggressive behaviours (bullying)
- Privacy issues, including disclosure of personal information
- Digital footprint and online reputation
- Health and well-being (amount of time spent online, gambling, body image)
- Sexting
- Copyright (little care or consideration for intellectual property and ownership)

Scope

This policy applies to all members of Suffield Park Infant and Nursery School community (including staff, governors, pupils, volunteers, parents/carers, visitors, community users) who have access to and are users of both school and personal technologies, both in and out of Suffield Park Infants and Nursery School.

Communication

The policy will be communicated to staff/pupils/community in the following ways:

- Policy to be posted on the school website and staffroom.
- Policy to be part of school induction pack for new staff, including information and guidance where appropriate
- All staff must read and sign the 'Staff Code of Conduct', previously known as Acceptable Use Policy (AUP)
- Code of Conduct to be issued to whole school community, on entry to the school. Lindsay Kerry to keep a register of this.
- Regular updates and training on online safety for all staff, including any revisions to the policy.

Handling Concerns

- The school will take all reasonable precautions to ensure online safety is in line with current guidance from the Department for Education (DfE)
- Staff and pupils are given information about infringements in use and possible sanctions.

- Designated Safeguarding Lead (DSL) acts as first point of contact for any safeguarding incident whether involving technologies or not
- Any concern about staff misuse is always referred directly to the Headteacher, unless the concern is about the Headteacher in which case the concern is referred to the Chair of Governors

Review and Monitoring

The online safety policy is referenced within other school policies (e.g. Safeguarding and Child Protection policy, Anti-Bullying policy, PSHE, Computing policy).

- The online safety policy will be reviewed annually **or** when any significant changes occur with regard to the technologies in use within the school
- There is widespread ownership of the policy and it has been agreed by the Senior Leadership Team (SLT) and approved by Governors. All amendments to the school online safety policy will be disseminated to all members of staff and pupils.

2. Education and Curriculum

Pupil online safety curriculum

This school:

- has a clear, progressive online safety education programme as part of the Computing Curriculum. This covers a range of skills and behaviours appropriate to their age and experience
- will remind students about their responsibilities through the Online Safety Rules Posters displayed in the classrooms by the Computers. These rules have also been discussed at home and parents/carers have signed.
- ensures staff are aware of their responsibility to model safe and responsible behaviour in their own use of technology, e.g. use of passwords, logging-off, use of content, research skills, copyright
- ensures that staff and pupils (this needs to be age appropriate) understand issues around plagiarism; how to check copyright and also know that they must respect and acknowledge copyright/intellectual property rights.

Staff and governor training

This school:

- makes regular up to date training available to staff on online safety issues and the school's online safety education program
- provides, as part of the induction process, all staff [including those on university/college placement and work experience] with information and guidance on the Online Safety Policy and the school's ICT Code of Conduct

Parent/Carer awareness and training

This school:

• provides information for parents/carers for online safety on the school website

• will provide parents/carers with guidance on online safety when appropriate

3. Incident management

In this school:

- there is strict monitoring and application of the online safety policy, including the ICT Code of Conduct and a differentiated and appropriate range of sanctions
- we will seek guidance from other agencies as needed (i.e. the local authority, <u>UK Safer Internet Centre helpline</u>, <u>CEOP</u>, Police, <u>Internet Watch Foundation</u>) in dealing with online safety issues
- monitoring and reporting of online safety incidents takes place and contribute to developments in policy and practice in online safety within the school
- parents/carers are specifically informed of online safety incidents involving young people for whom they are responsible
- the Police will be contacted if one of our staff or pupils receives online communication that we consider is particularly disturbing or breaks the law
- we will immediately refer any suspected illegal material to the appropriate authorities i.e. Police, Internet Watch Foundation and inform the LA
- Refer to Response to an Incident of Concern at the end of this document

4. Managing IT and Communication System

Internet access, security and filtering

In this school:

• we follow guidelines issued by the Department for Education to ensure that we comply with minimum requirements for filtered broadband provision

The Education Network (NEN) has produced a <u>school e-security checklist</u>, setting out 20 e-security controls that, if implemented effectively, will help to ensure that school networks are kept secure and protected from internal and external threats.

The advice presented here is adapted from the Council on Cyber Security's Critical Security Controls document. The description of each control is accompanied by two sets of questions: one for school network managers and support staff, and one for head teachers and senior leadership teams. The former are concerned with operational matters, while the latter focus on policy, strategy and budgetary considerations.

An accompanying document, <u>10 steps to protect your school's network – a guide for</u> <u>school leaders</u>, provides a one page overview of these controls for school senior leadership teams.

Through answering the following questions, your school should be able to write a clear set of statements about how e-security is addressed for this policy.

Critical Security Control		Questions for School Head Teachers, Senior Leaders and Governors
1.	Inventory of Authorized and Unauthorized Devices: Actively manage (inventory, track, and correct) all hardware devices on the network so that only authorized devices are given access, and unauthorized and unmanaged devices are found and prevented from gaining access.	Does your school's ICT Code of Conduct/acceptable use policy (AUP) include provisions/instructions to ensure only authorised devices are connected to the school's network? Yes
2.	Inventory of Authorized and Unauthorized Software: Actively manage (inventory, track, and correct) all software on the network so that only authorized software is installed and can execute, and that unauthorized and unmanaged software is found and prevented from installation or execution.	Does your school's ICT Code of Conduct/acceptable use policy (AUP) include provisions/instructions to ensure only authorised devices are connected to the school's network? Yes
3.	Secure Configurations for Hardware and Software on Mobile Devices, Laptops, Workstations, and Servers: Establish, implement, and actively manage (track, report on, correct) the security configuration of laptops, servers, and workstations using a rigorous configuration management and change control process in order to prevent attackers from exploiting vulnerable services and settings.	Does your school's ICT Code of Conduct/acceptable use policy (AUP) include clear provisions/instructions warning users about tampering with secure configurations, with clear sanctions for any infraction? Do you have visibility of likely costs to upgrade and refresh hardware and software as necessary, and when these costs are likely to be incurred (for example, antivirus software subscriptions, firewall support and maintenance services, dates for when hardware/software will go "end of life" and need to be replaced)? Yes We are part of the Refresh programme.
4.	Continuous Vulnerability Assessment and Remediation: Continuously acquire, assess, and take action on new information in order to identify vulnerabilities, remediate, and minimize the window of opportunity for attackers.	Do you have processes in place for regular review of e-security functions and your IT acceptable use policies to address new and emerging threats? How do you ensure staff and pupils receive appropriate e-security advice and training? Yes annual review of policy and updating staff about any new developments.
5.	Malware Defences: Control the installation, spread, and execution of malicious code at multiple points in the enterprise, while optimizing the use of automation to enable rapid updating of	How do you ensure that your ICT Code of Conduct/acceptable use policy (AUP) are up to date to minimise risks in this area? Annual review and discussion with NCC. What sanctions are applied for malicious use of school

	defence, data gathering, and corrective action.	IT services and systems? NCC disciplinary procedures
6.	Application Software Security: Manage the security lifecycle of all in-house developed and acquired software in order to prevent, detect and correct security weaknesses	Do you have visibility of when significant upgrade and renewal of software will be required, both in terms of likely cost and ensuring service continuity? IT Technician How do you ensure staff and pupils are trained in the use of new software? Training provided when appropriate.
7.	Wireless Access Control: The processes and tools used to track/control/prevent/correct the security use of wireless local area networks (LANS), access points, and wireless client systems.	What is the school's policy on wireless access – do you allow guest access, or access from staff- or pupil- owned devices? Governor access Does your ICT Code of Conduct/acceptable use policy (AUP) appropriately encompass access from staff- or pupil-owned devices if this is allowed? Yes Do your staff and pupils understand their obligations and responsibilities in relation to using their own devices in school, if they are allowed to do so? Yes
8.	Data Recovery Capability: The processes and tools used to back up critical information properly with a proven methodology for timely recovery.	Does your school have an overarching disaster recovery/business continuity plan? Yes If so, does this encompass restoration of IT facilities and critical school data appropriately? Yes
9.	Security Skills Assessment and Appropriate Training to Fill Gaps: For all functional roles in the organization (prioritizing those missioncritical to the business and its security), identify the specific knowledge, skills, and abilities needed to support defence of the enterprise; develop and execute an integrated plan to assess, identify gaps, and remediate through policy, organizational planning, training, and awareness programs.	Does your school's overarching staff training and development planning include provisions to ensure that technical support staff can keep up to date with e-security risks and best practices and that all teaching and administrative personnel understand their own e- security obligations and responsibilities? Yes
	Secure Configurations for Network Devices such as Firewalls, Routers, and Switches: Establish, implement, and actively manage (track, report on, correct) the security configuration of network infrastructure devices using a rigorous configuration management and change control process in order to prevent attackers from exploiting vulnerable services and settings.	Do you have visibility/awareness of when major changes and/or upgrades will need to be carried out, in terms of both likely cost/budgeting and maintaining service continuity? IT Technician
11.	Limitation and Control of Network Ports, Protocols, and Services: Manage (track/control/correct) the ongoing operational use of ports, protocols, and services on networked devices in order to minimize windows of vulnerability	Do you have visibility of when major changes are likely to be necessary? IT Technician Do you have effective processes for communicating changes, for example in relation to changing security settings to allow access to a new service or facility – are appropriate risk assessment and management

available to attackers.	processes in place and adhered to? IT Technician
12. Controlled Use of Administrative	Do you have effective strategies in place to ensure the
Privileges: The processes and tools	
to track/control/prevent/correct th	
use, assignment, and configuration	
administrative privileges on compu	
networks, and applications.	password changes? Yes
13. Boundary Defence:	
	Do you employ any independent third party testing of your boundary defences to maintain their
Detect/prevent/correct the flow of information transferring networks	
different trust levels with a focus o	
security-damaging data.	
14. Maintenance, Monitoring, and Ana	lysis How do you ensure that sufficient time is allocated to
of Audit Logs: Collect, manage, and	
analyse audit logs of events that co	
help detect, understand, or recove	
an attack.	monitoring and logging reside?
	What are your data retention policies, and where are they described?
15. Controlled Access Based on the Ne	they described?
Know: The processes and tools use	
track/control/prevent/correct secu	staff, administrative/managerial staff, pupils,
access to critical assets (e.g.,	
information, resources, systems)	governors)? Yes
according to the formal determinat	
which persons, computers, and	user groups up to date with their obligations and
applications have a need and right access these critical assets based o	
approved classification.	
16. Account Monitoring and	Do you undertake any monitoring of user accounts for
Control: Actively manage the life-cy	
system and application accounts –	
creation, use, dormancy, deletion -	
order to minimize opportunities for	
attackers to leverage them.	
17. Data Protection: The processes and	tools Are all staff and pupils aware of all their
used to prevent data exfiltration,	responsibilities and obligations in relation to sensitive
mitigate the effects of exfiltrated d	
and ensure the privacy and integrit	
sensitive information (exfiltration:	
unauthorized release of data from	
within a computer system or netwo	ork)
18. Incident Response and	How regularly are incident handling processes
Management: Protect the organiza	
information, as well as its reputation	
developing and implementing an	test and update incident handling processes and
incident response infrastructure (e	
plans, defined roles, training,	
communications, management	
oversight) for quickly discovering a	n
attack and then effectively contain	
attack and then enectively collidin	¹¹¹ δ

the damage, erac	licating the attacker's
presence, and re	storing the integrity of
the network and	systems.

19. Secure Network Engineering: Make security an inherent attribute of the enterprise by specifying, designing, and buildingin features that allow high confidence systems operations while denying or minimizing opportunities for attackers.	How much and how often are time and resources allocated to reviewing and updating the school network as a whole? IT Technician and Refresh What processes and analysis are employed to determine which security functions are best provided in house and which should be delivered using the expertise of third parties such as broadband service providers? As above
20. Penetration Tests and Red Team Exercises: Test the overall strength of an organization's defences (the technology, the processes, and the people) by simulating the objectives and actions of an attacker	How do you identify sources of advice and support that can scrutinise the security of you network and suggest an action plan for improvement? Through NCC as appropriate.

E-mail

This school

- Provides staff with an email account for their professional use, we use nsix.org.uk, and makes clear personal email should be through a separate account
- We use anonymous e-mail addresses for head@, office@
- Will contact the Police if one of our staff or pupils receives an e-mail that we consider is particularly disturbing or breaks the law.
- Will ensure that email accounts are maintained and up to date

Pupils email:

• Pupils at our School are not given email address but are taught about the online safety and 'netiquette' of using e-mail at home.

Staff email:

- Staff will use LA or school provisioned e-mail systems for professional purposes
- Access in school to external personal e mail accounts may be blocked
- Never use email to transfer staff or pupil personal data unless it is protected with secure encryption. 'Protect-level' data should never be transferred by email. If there is no secure file transfer solution available for the situation, then the data / file must be protected with security encryption.

School website

- The school web site complies with statutory DfE requirements
- Most material is the school's own work; where other's work is published or linked to, we credit the sources used and state clearly the author's identity or status;
- Photographs of pupils published on the web do not have full names attached. We do not use pupils' names when saving images in the file names or in the tags when publishing to the school website;

Social networking

Staff, Volunteers and Contractors

- Staff are instructed to always keep professional and private communication separate.
- Teachers are instructed not to run social network spaces for student use on a personal basis or to open up their own spaces to their students, but to use the schools' preferred system for such communications.
- The use of any school approved social networking will adhere to the ICT Code of Conduct

Pupils:

- Are taught about social networking, acceptable behaviours and how to report misuse, intimidation or abuse through our online safety curriculum work.
- Students are required to follow our [age appropriate] pupil ICT Code of Conduct. (Posters which are displayed in classrooms near computers)

Parents/Carers:

• Parents/carers are reminded about social networking risks and protocols through advisory materials when required.

5. Data Security

Management Information System access and data transfer

• Please use guidance from the <u>Information Commissioner's Office</u> to ensure that you comply with your responsibilities to information rights in school

6. Equipment and Digital Content

Digital images and video

In this school:

- We gain parental/carer permission for use of digital photographs or video involving their child as part of the school agreement form when their daughter/son joins the school
- We do not identify pupils in online photographic materials or include the full names of pupils in the credits of any published school produced video materials/DVDs
- Staff sign the school's ICT Code of Conduct and this includes a clause on the use of personal mobile phones/personal equipment
- If specific pupil photos (not group photos) are used on the school web site, in the prospectus or in other high profile publications the school will obtain individual parental or pupil permission for its long term, high profile use
