MESSAGE FROM THE HEAD

Thank you very much for attending our Christmas productions last week and for all the lovely comments and messages about the children's performances. Many thanks go to our team of staff who have worked so hard from beginning to end. We would also like to thank you all very much for your generous donations, which will go to Diabetic UK. The real stars of the show were the children who provided us with such a lovely start to the Christmas season.

May I take this opportunity to say a big thank you to all the helpers in the School and Nursery.

MERRY CHRISTMAS

NAMING CLOTHING

Please check your child's clothing and ensure it is clearly marked with their name, particularly coats, sweaters, cardigans and PE kit.

LET'S HAVE A NIT FREE START TO 2016!

Head lice are small, six-legged wingless insects. They are difficult to detect in dry hair even when the head is closely inspected. Head lice are not fussy about hair length or condition. Clean hair is therefore no protection, although regular hair washing and combing sessions offer a good opportunity to detect head lice and arrange treatment if discovered.

1. Wash the hair using ordinary shampoo and conditioner.

2. Using a fine tooth comb draw down from the roots to the ends of the hair. Check the

comb for lice after each stroke as you work through the hair section by section.

3. Rinse out the conditioner and continue with the combing method on wet hair.

This should be undertaken on a regular basis, at all hair washing sessions and remember to check all family members at the same time.

If you are at all worried about head lice or feel you need more advice on how to cope then you should consult your School Nurse Team, Health Visitor or G.P.
